Knowledge

English level

Upper-intermediate English level (B2). Throughout my life I have communicated with many English speakers, and this language has always been present at home.

Computer engineering

I have knowledge of fundamental computer science concepts, including programming in Java, C, C# and Python, computer systems and network design and management.

Additional skills: Self-taught system administrator with practical homelab experience. Proficient in deploying, configuring, and maintaining self-hosted applications. Full project breakdown available at gambalocal.es

Education

IES Bernardino del Campo

Completed secondary school.

UCLM

Currently in the 3rd year of the Computer Engineering degree at UCLM.

About me

Third-year university student at ESIAB, athlete and very disciplined. Eager to contribute with my knowledge and technical background. Willing to learn to acquire and develop more skills through working experience
